

Cold Spray Development and Applications at the University of Ottawa Cold Spray Lab

Dr. Bertrand Jodoin

University of Ottawa

The University of Ottawa Cold Spray Laboratory has actively participated in the promotion of Cold Spray in Canada since its inception in 1999. An overview of the facilities will be presented as well as some specific applications of the Cold Spray technology currently under development. An overview of the Shock Induced Spraying Process developed in Ottawa and licensed by Centerline (Windsor) Ltd will be presented as well as some spray results.
